Dear Larry:

STAT We have completed our review of Foreign Relations of the United States, Volume V, 1951, Near East and Africa, and reaffirm the deletions requested in [] letter of 13 September 1976 to William Z. Slany, as well as the one requested in my letter of 28 November 1980. Our review has surfaced two additional items which we now request be deleted:

1. Pages 496-498 EDW. We request that the entire Berry to Matthews memorandum of 15 March 1951 be deleted in order to protect intelligence sources, methods, and activities under E.O. 12065, Section 1-301(c). The problems that could result from the publication of such a document were not as apparent earlier as they are in light of recent events.

STAT 2. Page 50 LAY. We request that the words [] be deleted from paragraph 5.b to protect liaison relationships under E.O. 12065, Section 1-301(c). This is the same as a deletion requested originally on page 495 EDW.

Finally, we feel uneasy about the foreign policy implications of publishing pages 250-51 EDW, 22-23 LAY, and 255-60 DIK. The first two groups discuss negotiations with the British, and the third reprints NIE-9, which our systematic reviewers have held at CONFIDENTIAL to protect our foreign relations with Turkey. We feel that it is too informative about the capabilities and probable actions of an ally. We will, of course, defer to you on foreign relations matters, but ask that you let us know the Department's decision on NIE-9 so that we may change our review decision if necessary.

If the deletions requested in this and previous correspondence are made, we can now give approval for publication of this volume contingent on your assurance that there are no additional pages containing information of interest to this agency.
